Solugen Hand Sanitizer Products

OVERVIEW

Every day, we are working on transforming the chemicals industry by **creating products that are biobased and carbon negative.**

Solugen's mission to decarbonize the chemicals industry can be seen through our comprehensive line of environmentally-friendly products that help customers be responsible stewards of the environment and their local communities. This same technology is now being used in the production of our hand sanitizer product line. Adding hand sanitizers to our product portfolio provides a critical solution to help meet the needs of our communities.
